How to apply:

Apply to clean, dry lips. With lips parted, place applicator on lip beginning at the outside corner and spread in a fluid, sweeping motion to the opposite corner of the lip without lifting the applicator (do not move applicator back and forth). Use three layers for long-lasting results. Let each layer dry about five seconds before applying the next layer. Your customized look (any three shades) will last even longer with LipSense moisturizing glosses – and your lips will stay moist and plump.

LipSense Gloss \$18

Diamond Gloss \$20

Dehydrated and damaged lips are no match for the moisturizing ability of Shea Butter, a natural ingredient used as the base for the many textures of LipSense Glosses. Choose from glossy, pearl, matte or shimmering finishes. Moisturizing glosses improve the longevity of LipSense Liquid Lip Color, as well as cover and protect naked lips.
